

ECD GLOBAL

# ECD Global Education Strategy

A simple and pragmatic pilot plan for implementing our Early Childhood Development (ECD) vision in Fiji, leveraging Khanmigo for curriculum, teacher training, and program certification!

# Pilot Plan: Early Childhood Development Program for Fiji

## Objectives

Develop a cutting-edge, culturally relevant ECD curriculum for 3-6-year-olds based on global best practices

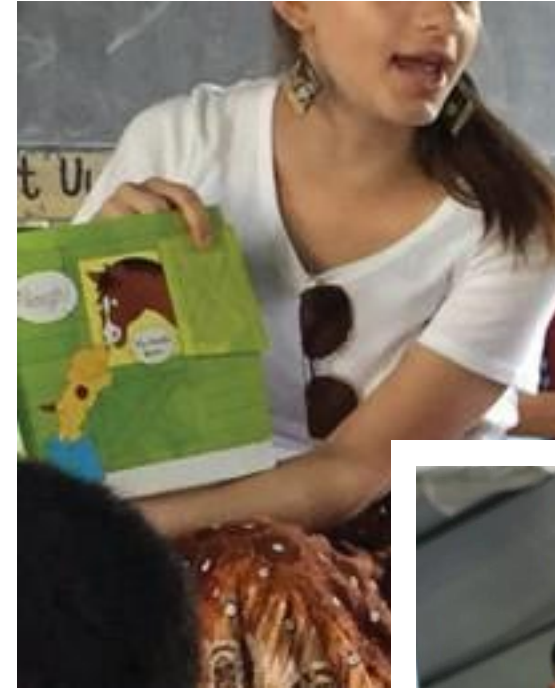

Train and certify teachers using Khanmigo, ensuring high-quality delivery.

Customize the program to Fiji's unique cultural and logistical context.

Lay the foundation for scalability and global accreditation.

# Key Deliverables

## Teacher Training & Certification:

- Digital training modules delivered via Khanmigo, emphasizing pedagogy, classroom management, and local adaptations.
- Teacher certification aligned with UNESCO and national standards.

## Monitoring & Reporting:

- Real-time tracking of student outcomes, teacher performance, and overall program effectiveness through Khanmigo analytics.

1

## Curriculum Design:

- A comprehensive ECD curriculum combining global best practices (Montessori, Reggio Emilia, Finnish models) and Fijian cultural elements (e.g., storytelling, local crafts).
- Age-appropriate activities focused on literacy, numeracy, social-emotional learning, and environmental awareness

2

3

## Pilot Implementation:

- Launch in a showcase community hub in Fiji, equipped with Starlink-powered connectivity and solar power for reliability.

4

5

## Accreditation:

- Prepare program documentation for global accreditation with UNESCO and UNICEF Pacific.

## Budget Estimate (Pilot Phase)

Item	Cost Estimate (USD)
Curriculum Development	\$10,000
Khanmigo Licensing & Support	\$15,000/year
Teacher Training & Certification	\$5,000
Starlink Setup & Connectivity	\$2,000 (initial setup)
Solar Power Installation	\$3,000
Pilot Hub Setup (Materials, Furniture, Supplies)	\$10,000
Monitoring & Evaluation	\$3,000
Total Estimated Budget	\$48,000

Note: This is an initial estimate and can be refined based on additional inputs.

# Partnerships

## Technology Support

Starlink:  
Ensure reliable internet access  
for Khanmigo in remote areas.

Solar Power Providers:  
Provide sustainable power for  
digital tools.

## Educational Partnerships

University of the South Pacific:  
Collaborate on teacher training  
and curriculum validation.

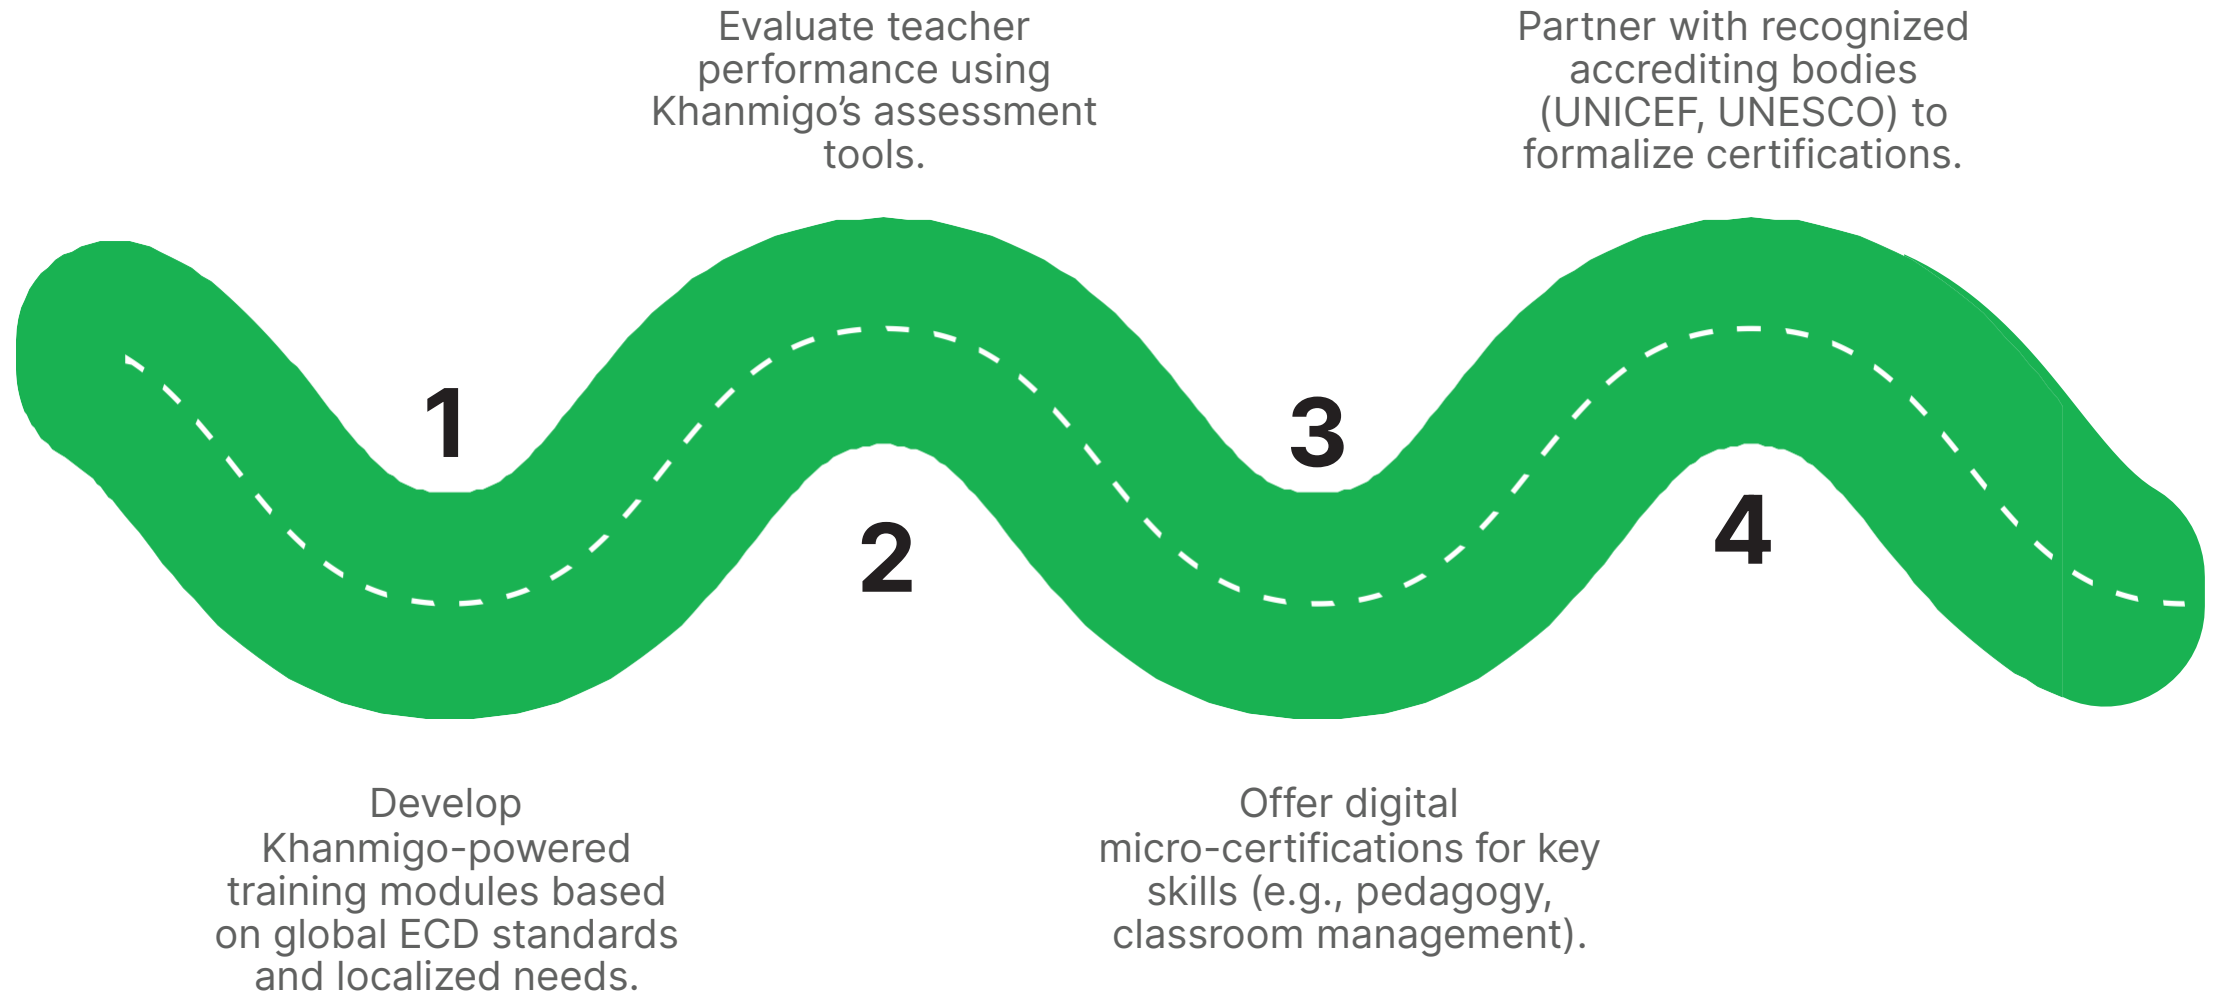

UNICEF Pacific:  
Guide program alignment with  
global standards.

## Local Community Engagement

Partner with local schools,  
NGOs, and village leaders to  
ensure community buy-in  
and participation.

# Roadmap for Teacher Certification

## Next Steps

### Finalize Stakeholder Agreements

Secure partnerships with Starlink, USP, and UNICEF Pacific.

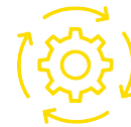

Identify local communities for the pilot program.

### Raise Funds

Present this plan to potential donors (corporate sponsors, foundations, etc.).

Approach key players like MacKenzie Scott, the Gates Foundation, or local philanthropists.

### Begin Development

Initiate curriculum creation and Khanmigo customization.

Design teacher training modules and plan pilot hub logistics.

### Launch the Pilot

Train teachers and implement the program in one or two hubs.

Use real-time analytics to refine the approach

This plan is actionable, scalable, and ensures tangible outcomes while leveraging Khanmigo to minimize time and costs.
